1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

The application has been amended as follows: In claim 7, line 11 of page 24, insert a comma after "duct";

and in line 13 of page 24, delete "intake".

In claim 15, line 13 of page 26, before "duct" insert --return air--.

2. This application is in condition for allowance except for the presence of claims 1-6 and 17-20 to inventions non-elected without traverse. Accordingly, claims 1-6 and 17-20 have been cancelled.
3. The following is an examiner's statement of reasons for allowance: the claims are allowable because the prior art of record fails to disclose or teach the recited method of activating the outside damper and circulation fan for a preselected time independent of the thermal conditioning element, pulling outside air and mixing the outside air into the return air duct, shutting down the circulating fan after a predetermined time, and repeating the above steps for an extended period of time.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
